12:35 p.m. PST

Hyatt Regency Huntington Beach

End-to-End AI-Enhanced MSK Imaging: Clinical Applications and Workflow Optimization

This talk explores real-world clinical applications of AI in musculoskeletal MRI, highlighting deep-learning reconstruction with AiCE to improve image quality while reducing scan time, and Auto Scan Assist to streamline acquisition and optimize workflow efficiency. Attendees will gain practical insights into Canon's solution integrating AI seamlessly from image acquisition to clinical impact.
